

EXTERIOR HAZARDOUS UNITS

DRUM STORAGE UNITS

Drum storage units are designed for the prevention of environmental pollution and hazardous situations occurring by way of accidental spills. Constructed from 2mm profiled mild steel sheet over 100mm x 50mm x 3mm RHS with a fully welded leakproof sump over the entire base area. The units come with removable galvanised grid shelving, grid flooring and high / low level flame arrested vents. Enclosed by sliding doors to be secured by padlock (not supplied).

The drum storage units are designed to house 205 litre drums and come in a variety of sizes.
