

METRIC STORAGE LOCKERS

PROBE STORAGE LOCKERS

These coloured lockers are manufactured to the highest specification. Lockers are welded and riveted in construction. Semi concealed hinges are welded to the door and riveted to the frame, allowing easy replacement of doors. Doors positioned within a rebated frame to enhance compartment security. The carcass incorporates nesting holes on all sides and a return flange at the base for extra strength and to reduce floor damage. Lockers are manufactured using cold rolled steel. Material thickness specification 0.9mm doors and frame, 0.7mm carcass and shelves. Components are polyester powder coated prior to assembly to ensure all surfaces are protected. Lockers non returnable unless deemed faulty or damaged.

Each locker is of welded and riveted construction from 0.7mm and 0.9mm sheet steel. Each compartment features an integral air vent system, a micro sprung disc lock, 5 knuckle hinges, welded front frame and internal door strengtheners (not available on all lockers due to manufacturing constraints). Single compartment includes top shelf and double coat hook. Two compartment and double coat hook.

SINGLE DOOR

H x W x D(mm)	Code	£
1800 x 300 x 300	183030S	77.56
1800 x 300 x 380	183038S	91.10
